PROFESSIONAL SUMMARY

AI Engineer with 1+ year of experience building and deploying LLM-powered, agentic, and automation systems in production. Specialized in Retrieval-Augmented Generation (RAG), multi-agent orchestration (LangChain / LangGraph), AI voice agents (Vapi, Retell AI), and workflow automation (n8n, Make) — shipping AI products that cut manual effort and drive measurable business impact.

CORE SKILLS

Generative & Agentic AI: LLMs, RAG, Prompt Engineering, LLM Fine-Tuning (QLoRA), Multi-Agent Systems, AI Voice Agents

Frameworks & Libraries: LangChain, LangGraph, LangSmith, Hugging Face, PyTorch, TensorFlow, Scikit-Learn

Automation & Voice AI: n8n, Make, Vapi, Retell AI

Integrations & CRM: HubSpot, GoHighLevel, Airtable, Jotform

ML & Data Science: Supervised/Unsupervised Learning, NLP, Computer Vision (YOLOv8), Model Evaluation (RAGAS)

MLOps & Deployment: FastAPI, Streamlit, MLflow, Docker, CI/CD Pipelines

Cloud & Databases: AWS, Microsoft Azure | PostgreSQL, MySQL, MongoDB, FAISS, ChromaDB

Languages & Tools: Python, SQL, Git | English (Professional), Urdu (Native)

PROFESSIONAL EXPERIENCE

AI Engineer Intern

SaylaniTech Limited | Onsite | Jul 2025 – Sep 2025

- Built scalable AI products using LLMs and NLP pipelines with production-grade API integrations.

AI Engineer Intern

Visdalytics | Remote | May 2025

- Developed AI chatbots, TTS tools, a Roman-Urdu converter, and CV/ML pipelines (YOLOv8, Transformers, TensorFlow).

KEY PROJECTS

AuraClaw — Autonomous AI Agent Framework

Personal Project — In Progress, 2026

- Building a from-scratch autonomous agent framework in pure Python (inspired by OpenClaw), featuring LangGraph/LangChain orchestration, a modular custom tool system, and a multi-provider LLM gateway.
- Integrated a WhatsApp channel (whatsapp-web.js), enabling users to chat with the agent directly from a messaging platform.

DineMate — Agentic AI for Automated Food Ordering

[Live Demo](#) | 2025

- Engineered a LangGraph multi-agent backend with voice ordering (Whisper ASR, Torch TTS, Qwen, LangChain) and secure role-based authentication.
- Boosted ordering efficiency by 30% and improved business visibility 25% via real-time analytics dashboards.

Diagnosify — LLM-Powered Medical Report Insights

[Live Demo](#) | Hackathon 2025 — Top 10 Finalist

- Built a RAG chatbot combining OCR and prompt-tuned LLMs to interpret unstructured medical reports, validated with RAGAS for answer faithfulness.
- Delivered a production-ready tool in 12 hours; selected Top 10 at the SMIT AI Hackathon.

CERTIFICATIONS

- Deep Learning Specialization — DeepLearning.AI (Coursera), 2025
- Natural Language Processing Specialization — DeepLearning.AI (Coursera), 2025
- Machine Learning Professional Certificate — IBM (Coursera), 2024
- Artificial Intelligence & Data Science — S.M.I.T., 2025

EDUCATION

B.S. in Computer Science

Sindh Madressatul Islam University | Karachi, Pakistan
