PROFESSIONAL SUMMARY

AI/ML Engineer with 2+ years of experience building, training, and deploying machine learning and LLM-powered systems in production. Skilled in Python and ML frameworks (Scikit-learn, TensorFlow, PyTorch), with hands-on work in NLP, computer vision, Retrieval-Augmented Generation (RAG), multi-agent orchestration (LangChain / LangGraph), and model/API integration — shipping AI products that cut manual effort and drive measurable business impact.

CORE SKILLS

Generative & Agentic AI: LLMs, RAG, Prompt Engineering, LLM Fine-Tuning (QLoRA), Multi-Agent Systems, AI Voice Agents

Frameworks & Libraries: LangChain, LangGraph, LangSmith, Hugging Face, PyTorch, TensorFlow, Scikit-Learn

Automation & Voice AI: n8n, Make, Vapi, Retell AI

Integrations & CRM: HubSpot, GoHighLevel, Airtable, Jotform

ML & Data Science: Supervised/Unsupervised Learning, NLP, Computer Vision (YOLOv8), Model Evaluation (RAGAS)

AI Security & Evaluation: Red-Teaming (Garak, promptfoo), OWASP LLM Top 10, MITRE ATLAS, Prompt Injection, Guardrails (Llama Prompt Guard 2)

MLOps & Deployment: FastAPI, Streamlit, MLflow, Docker, CI/CD Pipelines

Cloud & Databases: AWS, Microsoft Azure | PostgreSQL, MySQL, MongoDB, FAISS, ChromaDB

Languages & Tools: Python, SQL, Git | English (Professional), Urdu (Native)

PROFESSIONAL EXPERIENCE

AI Engineer

Revera Innovations | Karachi (Hybrid) | Feb 2025 – Present

- Designed, built, and deployed to production a virtual try-on system and an autonomous skin-analysis agent that detects skin concerns from a live photo and recommends products from live inventory via agent reasoning.
- Shipped production automation workflows (n8n, Make) integrating HubSpot, GoHighLevel, Airtable, and Jotform to automate lead capture and CRM operations, plus real-time AI voice agents (Vapi, Retell AI).

AI Developer

Bright Solutions | Karachi (Hybrid) | Dec 2024 – Feb 2025

- Built and deployed AI voice agents and automated lead-generation systems adopted in production for live business operations.

AI Engineer Intern

SaylaniTech | Onsite | Jun 2024 – Dec 2024

- Developed LLM- and NLP-based AI features and integrated them into applications via production-grade APIs.

Data Science Intern

Digital Empowerment Network | Remote | May 2024 – Jun 2024

- Built predictive models on social-impact datasets and delivered data-cleaning pipelines and stakeholder reports in Python.

KEY PROJECTS

AuraClaw — Autonomous AI Agent Framework

Personal Project — In Progress, 2026

- Building a from-scratch autonomous agent framework in pure Python (inspired by OpenClaw) — LangGraph/LangChain orchestration, a modular custom tool system, a multi-provider LLM gateway, and a WhatsApp channel (whatsapp-web.js).

DineMate — Agentic AI for Automated Food Ordering

[Live Demo](#) • [Security Report](#) | 2025

- Engineered a LangGraph multi-agent backend with voice ordering and role-based auth, boosting ordering efficiency by 30% and business visibility by 25%; led a full OWASP LLM Top 10 / MITRE ATLAS red-team and hardening cycle, fixing a critical excessive-agency pricing vulnerability via server-side recomputation and deploying a Llama Prompt Guard 2 guardrail.

Diagnosify — LLM-Powered Medical Report Insights

[Live Demo](#) | Hackathon 2025 — Top 10 Finalist

- Built a RAG chatbot combining OCR and prompt-tuned LLMs to interpret unstructured medical reports (validated with RAGAS); delivered in 12 hours and selected Top 10 at the SMIT AI Hackathon.

CERTIFICATIONS

- Deep Learning Specialization — DeepLearning.AI (Coursera), 2025
- Natural Language Processing Specialization — DeepLearning.AI (Coursera), 2025
- Machine Learning Professional Certificate — IBM (Coursera), 2024
- Artificial Intelligence & Data Science — SMIT (Saylani), 2025

EDUCATION

B.S. in Computer Science

Sindh Madressatul Islam University | Karachi, Pakistan | 2023 – 2027 (Expected)
